CARI POWERS OF PARE CORPORATION BECOMES FIRST FEMALE PRESIDENT OF THE PROVIDENCE ENGINEERING SOCIETY

LINCOLN, RI—Pare Corporation (PARE) is proud to announce that Cari Powers, a Senior Civil Engineer with the firm, was elected and sworn in as President of the Providence Engineering Society at its Annual Meeting held this summer at the Wannamoisset Country Club in East Providence, RI. The Providence Engineering Society is the oldest professional engineering society in the United States, and Powers is the first female President in the society's 114 years of existence.

Powers grew up in Maine and graduated from the University of Maine in 2004 with a Bachelor of Science Degree in Civil Engineering. As an undergraduate student, she served as President of the ASCE student chapter, Treasurer of the student chapter of the Society of Women Engineers, and was inducted into the Chi Epsilon Honor Society, a civil engineering honor society.

After graduation from college in 2004, Powers joined Pare Corporation where she currently serves as a Senior Civil Engineer specializing in educational, institutional, commercial, residential, and mixed-use projects in the southern New England region. She is also pursuing a master's degree in engineering from Worcester Polytechnic Institute.

Established in 1970, PARE's 70+ person staff provides comprehensive planning, engineering, permitting, and construction-phase services throughout the Northeastern United States. Working for a wide array of public and private sector clients, PARE offers special expertise in the areas of site/civil, land development, geotechnical, structural, highways, bridges, water/wastewater, dams, waterfront/marine, municipal and environmental engineering. PARE operates from a full-service office in Foxboro, Massachusetts, and from its headquarters in Lincoln, Rhode Island.
