

OPEN POSITION: Project or Senior Project Level Environmental Engineer

JOB CODE: ENV-PE-02-02-21

OFFICE LOCATION: Lincoln, RI

POSITION SUMMARY:

Pare Corporation has a position available for a Project or Senior Project Level Environmental Engineer with 10+ years of experience in water supply and/or wastewater-related engineering. Water and wastewater treatment experience is a plus, but not required. This position applies extensive knowledge of principles and practices to a broad range of assignments and projects to support and/or manage a major project or several projects of moderate scope with complex features. The ideal candidate will have very strong technical capabilities and project management experience.

DUTIES AND CORE RESPONSIBILITIES:

- Perform and/or supervise environmental engineering projects in the fields of water supply and wastewater collection. This may include directing the work of engineers, technicians, administrative staff, and subcontractors in a multi-disciplined team environment.
- Review and/or prepare environmental engineering reports, progress reports, contract documents, and other project documents.
- Develop/research new techniques and/or improved processes, materials, or products.
- Prepare progress reports, schedules and budgets for ongoing projects.
- Prepare scope, staffing estimates, progress reports, schedules and budgets for proposals.
- Attend and present at interviews, project meetings and community outreach presentations.
- Represent the firm in the community, professional organizations, and at events.
- Assist in staff hiring and performance evaluations.
- Other related activities as needed.

EDUCATION, EXPERIENCE, AND COMPETENCIES:

- Registered Professional Engineer preferred or the ability to become one within a year of start date required.
- Bachelor's degree in engineering from an ABET/EAC accredited program; master's degree or equivalent preferred.
- In-depth knowledge of environmental and water/wastewater design and engaged in life-long learning to maintain knowledge of contemporary issues.
- 10+ years of experience in water supply and/or wastewater-related engineering.
- Experience with staff and project management.
- Experience in preparation of Construction Documents (i.e. plans and specifications) required.
- AutoCAD and GIS capabilities strongly preferred.
- Hydraulic modeling for both water and wastewater systems strongly preferred.
- Must be able to communicate effectively using verbal, written, and interpersonal communication skills to internal and external audiences.
- Attention to detail and the ability to think critically.
- Self-motivated with a professional attitude.
- Active participation in professional and/or community organizations.
- Service-oriented approach to client management and willingness to act as a mentor for lower-level employees preferred

Pare Corporation offers a solid compensation and benefits plan including:

- Competitive Salaries
- Paid Holidays and Vacations
- Health, Dental, Vision, Life, and Long-Term Disability Insurance
- 401(k) Retirement Plan with Competitive Company Match
- Tuition Reimbursement
- Professional Registrations, Licensing Fees and Memberships

Pare Corporation is an equal opportunity employer and maintains a policy of affirmative action for minorities and women, individuals with disabilities, and protected veterans.
